

## In Bloom at Van Vleck September 3rd

**Highlights of the week:** Although maximum color and interest is concentrated in the central part of the garden, be sure to explore other areas as well. Stroll through the Upper Lawn to see *Vernonia 'Iron Butterfly'* blooming in our newly planted wildflower meadow and see *Heptacodium miconioides* (seven sons flower) opening its first blossoms. A detour to the woodland brings you to *Clematis terniflora* (sweet autumn clematis).
