

In Bloom at Van Vleck August 4th

Highlights of the season: Wildflower meadow is full of color... *Rudbeckia amplexicaulis* (clasping coneflower), *Monarda citriodora* (lemon beebalm), *Monarda fistulosa* (beebalm), *Monarda punctata* (spotted beebalm), and *Verbena hastata* (blue vervain). The goldfinches have also decided that this is their favorite part of the garden.

Scientific Name	Common Name	Where?	Fragrant?			
-----------------	-------------	--------	-----------	--	--	--
